COMPARER MES ASSURANCES

My home inventory

STARTER SHEET / KEEP FOR YOUR RECORDS

One room at a time. Start with a few belongings, then complete your records at your own pace.

- [ ] **1. Choose a room**
  Note the location and date. Take a general photo, then photograph the belongings you want to document.

- [ ] **2. Record the details you know**
  Item, quantity, brand, model and serial number, if available. Do not guess missing details.

- [ ] **3. Gather supporting records**
  Keep available receipts, invoices, warranties or other records with your photos. Label the files.

- [ ] **4. Check before saving**
  AI may miss or confuse items. Correct suggestions and add missing belongings. Any value you enter remains your own estimate.

- [ ] **5. Back up and update**
  Save the PDF and the backup file for resuming your work. Check that they open and keep a copy on another secure medium. Update after important changes.

Your next step

Room to start with: _____
